

Program Abstract

Corporate Coach Program (CCP) for Healthcare

The Corporate Coach Program (CCP) is designed specifically for administrators and managers who seek to augment their leadership skills. This program equips participants with the insights and skills necessary to use corporate coaching techniques within the healthcare setting.

The CCP leverages proven coaching techniques to help organizational leaders navigate the rapidly changing healthcare industry. Leaders become certified in the field of coaching to work with individuals and teams to reach peak performance through action learning.

The CCP for Healthcare

There are six major components to the CCP:

- 1. Overview of Coaching: What Is It?**
- 2. Dealing with Differences and Varying Priorities in the Healthcare Setting**
- 3. Dealing with Conflict, Stress and Emotions in the Workplace**
- 4. Coaching Others through Career and Role Issues in the Healthcare Setting**
- 5. Coaching Others through Required Changes**
- 6. Personalized Coaching**

You will receive three coaching sessions after the coursework is completed. These sessions will be with the class instructor and are meant to help you integrate the information learned from the classes into your workplace.
